

Nursery Topic News

Bonnygate Primary School

Our Topic: Ourselves

Key Question: How do we use our senses?

Ourselves:

- Showing your children their eyes, ears, nose and mouth.
- Encourage your child to complete tasks independently.
- Use Duplo/Lego to build houses with your children.
- Encourage your child to run, walk, skip, jump and ho.
- Introduce children to counting songs.
- Talk to your children about the friends they play with at Nursery.

My Family:

- Talk to your child about your family.
- Share photographs of your families with your child.
- Provide your child with different sized toys to play with. Talk about bigger and smaller.

Senses

- Explore the different sense, taste, touch, smell and sight.
- Encourage children to sue these senses by setting up a game where children can touch, taste smell and see different media.

Creative homework

We are going to be sending out our topic leaves which we would like you to add key questions related to our topic. These can be questions about anything your child would like to know in this topic.

As part of the creative homework for this topic we would like you to bring in a baby picture of your child which will be used as part of our learning. In addition to this you could have a go at some of these ideas:

1. Using paper plates to make faces
2. Creating a picture of yourself or/and your family.
